How To Get Started

Step 1 - Get The App
Use your camera to scan the QR code

or

Search 'SignOnSite' in the App or Google Play store

 App Store   Google Play

Step 2 - Account Setup
Fill in your details and load in your licenses

Step 3 - Sign On
When you arrive to site, open the app and click 'Find Your Site'

If you have any issues, find Troubleshooting inside the Menu to check your settings and permissions have been set correctly
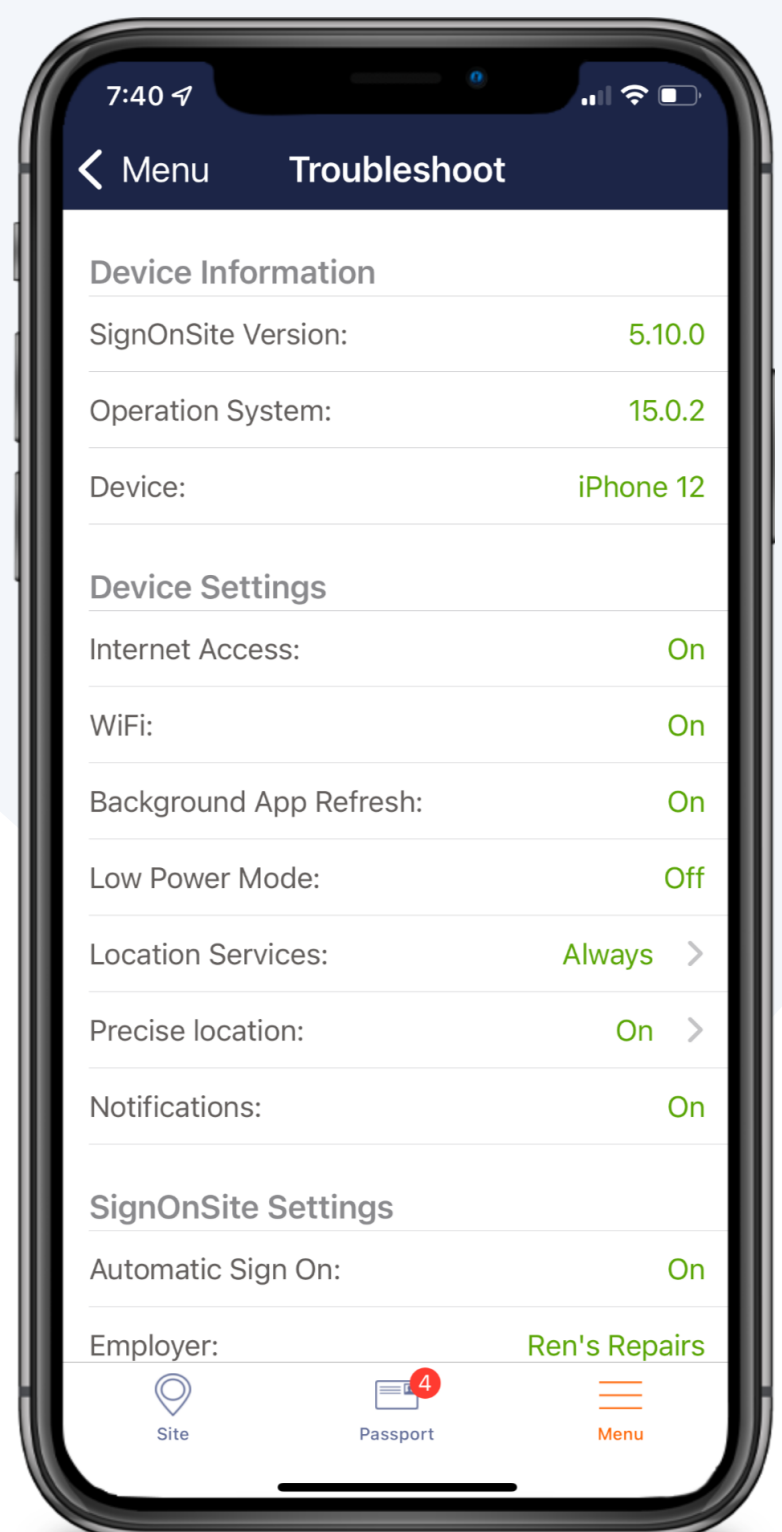

SignOnSite

Mobile App Set Up

Permissions

Giving permission to **always** allow location to be accessed along with other permission requests will allow the app to better perform the sign on function.

Confirm Settings

Check that all app settings are correct.
Tap menu > troubleshooting

If anything appears in red make the required changes or request assistance from your safety/site manager.
